

On November 11th Tatiana was the host in the Telethon Route in Ecatepec, Mexico where as well as in Durango she was the main artist, she introduced informative news articles, and real life experiences of handicapped children and as I said before she was the host and she sang songs from her cd "el regalo 2" for example "La de la mochila azul", "La thriller cumbia", and "el chango marango", with this one she said good bye. "See you all at the Telethon! and remember helping is an action of love" Tatiana said to the 3,000 people there.

She was not only the star of that event but also she made another girl's dream come true, 3 year old girl Nicole who has cancer dreamed to meet Tatiana, and of course Tatiana accepted with pleasure. Sitting in the first row little Nicole saw Tatiana's performance with astonishment, and later she met her at backstage.

The next day after her performance at the telethon route Tatiana was the "godmother" of a new children's area of a very famous mall in Ecatepec.

On November 15th in her native city Monterrey, another altruist event was carried out it is called "Que Monterrey no tenga frio", this is the 4th time that Tatiana is invited, singing and hosting, let me tell you that last year she sang the main song of this event and was the main artist as well, this year was the opportunity of also singer Pedro Fernandez, this event is carried out every year in Monterrey to collect bedspreads for people that live in the north of the state because in this time of the year is extremely cold.

On November 16th as part of her "el regalo

2005 tour" Tatiana visited the state of Tlaxcala that were celebrating the local fair, it was a total success more that 6,000 people were there. She recieved an award for her performance given by Tlaxcala governor.

On November 19th Tatiana was invited to the "Oye! awards", and at 6:30 sharp Tatiana was at the blue carpet, this is the second time the academy invites Tatiana not only to present an award on stage but also as a nominee for best children's album "el regalo 2", Tatiana was very happy for this because unfortunately not all the international awards take into account children's music. During this awards at backstage a very peculiar encounter was celebrated between the queen of children's music Tatiana and the king of the night Robbie Williams, during this meeting Tatiana told Robbie she was a huge fan of his and he congratulate her for doing children's music so the children will grow up knowing what is good music.

In other ideas Tatiana for the 9th time was invited to the annual Telethon celebrated in Mexico, this event is the most biggest and most important altruist event and this year she will open the Telethon by singing with Pedro fernandes, Biby Gaytan and Eduardo Capetillo the song "Siempre adelante con la esperanza" written by Chacho Gaytan a very important composer in Mexico. This event is o collect money through donations to build hospitals for handicapped, children with down etc, we are trying to build one in each state of Mexico.
