

## September 2005 News

Tatiana continued successfully with her schedule of performances. She gave a show in her hometown on September 3rd before more than 20,000 people in two amazing concerts in the Monumental Plaza de Toros. She now holds an all-time record because she is the first artist to have appeared there four times in just one year. She was very pleased to receive a special award denoting this achievement. Also while there, she invited everyone to come to a special autograph session that a very popular supermarket organized on September 10, 11, 24 and 25th. Tatiana specializes in making her fans' dreams come true as she demonstrated again when she made of point of seeing with a young lady with cardiac problems who had long desired to meet La Reina.

Of course, Tatiana has her own dreams and one of them is to bring entertainment for children to Las Vegas and to make a long series of appearances. She has had great success there before when during one show 17,000 came, but she knows she can do even better if given the chance. She is even now making plans to bring this about.

On September 25, she brought her show back after two years to the Macroplaza in Monterrey, and it was totally free for all! Juan Ramon Palacios, Tatiana's brother and director of Tatimusic Productions says that she did the same songs as during her famous show at the Nacional Auditorium in Mexico city celebrating her twentieth year as an entertainer. Lucky audience!! Once again she signed autographs for all!

Tatiana also deserves some recognition for performing in temperatures that reached 104 degrees during a celebration for the 409th anniversary of Monterrey! Always the professional, and always dedicated to her public, she braved the extreme conditions despite the real dangers of elevated blood pressure! After a full hour of singing she had to excuse herself to go backstage and be checked by her doctor, but she quickly reappeared to sing a final song, "El Baile de la Ranita" from El Regalo to her rapturous applause.

The best news is that Tatiana might actually get some of the recognition she has earned as she so has been nominated for "Las Lunas del Auditorio." These are awards bestowed upon the artists judged to be the best for the year in Mexico in various categories. She has been chosen to be among those considered for an award for providing the best family entertainment. They will be given in a gala event held on October 5th at the Nacional Auditorium in Mexico City. Let's all keep our fingers crossed!!
