

TATIANA'S NEWSLETTER

Hello there Tatifans, sorry for the lateness, but here I am to give you the latest news of 2006.

Definitively this will be a great year for Tatiana because since the year started she was already working, like her new cd that will be in stores next April is ready! as

an exclusive this cd will include a duet with also singer Priscilla (you probably know her because of her

group "Priscilla y las balas de plata") the song "mi burrito querendon", also fans will be able to help choose the name of this cd by voting in tatiana.tv.

Last January 28th Tatiana performed at the arena Monterrey where more than 10,000 people attended, with a show more than spectacular full of fireworks, lights, and confetti, Tatiana surprised us all when dressed as the fairy godmother she flew and also she sang for the first time the song "mi burrito querendon" along with Priscilla.

Another great new is that, there in the concert Tatiana was awarded with a gold DVD because of the success of her new DVD of the concert she offered at the auditorio nacional in Mexico city, the first 10,000 Dvd's sold right away!!.

Tatiana was invited by a TV show called "Muevete" where they made her a tribute for her 22 years of career, projecting all the most relevant moments in video and pictures. She also sang two songs from her most recent cd "el regalo 2" and talked about her future plans.

Last February 16th Tatiana visited a hospital, because of St Valentines day to give some joy to the boys and girls there.

Following with altruist events, Tatiana will be the image of an event called "Los patitos de hule" (rubber ducks) that consists of that through donation you buy a rubber duck and that money goes to a foundation that helps children with cerebral paralysis, and every duck has a number that next March 12th in a contest people will be able to win various prizes. Of coarse Tatiana will be there to sing "super pato" and to get this event started in Monterrey.

Well that's it for today but I'll see ya soon for more news.
